WAIVER OF LIABILITY

ONLY FOR BODYWORK SUCH AS CRANIOSACRAL THERAPY, VISCERAL MANIPULATION OR ACCESS BARS

Caroline Konnoth, P.T. has advised me that the procedures of "craniosacral therapy," "visceral manipulation" or "running bars" are not reimbursed by any insurance company. Being that this clinical procedure has no CPT code, it is not considered medically necessary by all insurance companies and therefore not payable as a physical therapy service. Although this is so, I have instructed the therapist to proceed with the service and I will assume full responsibility for payment for all treatment sessions I will receive.

PAYMENT SCHEDULE **: Payment is always made in advance**.

Sessions are 45 minutes long. Light food intake is recommended

1. For CRANIOSACRAL THERAPY AND VISCERAL MANIPULATION, there are 2 options for payment. The charge is per session.:

a. **OUT-OF-NETWORK**: Herein you will be responsible for
- a charge of $200 for the initial session, and
- subsequent payments of $160 for every following session

These out -of-network payments are reimbursable via HCFA forms that the therapist provides for all other payable physical therapy procedures also incorporated in each session

b. **IN-NETWORK**: Herein you will be responsible for:
- a charge of $200 for the initial session, and
- an additional charge of $75 if you carry Medicare, or
- an additional charge of $120 if you carry any other insurance that allows unlimited PT visits without the need to pre-authorize them. The balance per session is paid for by your insurance company for all other payable physical therapy procedures also incorporated in each session.

2. **Discount Packages are available for craniosacral therapy and visceral manipulation as follows. These payments are non-refundable.:**

a. Purchase 5 sessions each session discounted as $150/session (out of network=$750) or $115/session (in-network=$575). **All treatment sessions must be completed within 3 months.**

b. Purchase 10 sessions, pay for 9 sessions & get 1 bonus session (out of network @ $160/session=$1,440) or (in-network @$120/session=$1080) **All treatment sessions must be completed within 6 months.**

3. For ACCESS BARS the cost is $160 per session.

4. **Clinician Travel Charges: Home visits by this clinician are only undertaken as an emergency. These cost an additional $70 fee per visit in Queens and Long Island and an additional $90 fee per visit in Manhattan additional to the cost of each treatment session.**

THE ABOVE PAYMENT SCHEDULE HAS BEEN READ AND UNDERSTOOD BY ME.

HIPAA PRIVACY RULE SUMMARY

Below is a summary of the HIPAA Act. For complete details and disclosures visit:

http://www.hhs.gov/ocr/privacy/hipaa/understanding/summary/privacysummary.pdf

Protected Health Information: The Privacy Rule protects all "individually identifiable health information" held or transmitted by a covered entity or its business associate, in any form or media, whether electronic, paper, or oral. The Privacy Rule calls this information "protected health information (PHI)." "Individually identifiable health information" is information, including demographic data (e.g., name, address, birth date, Social Security Number), that relates to:

1. an individual's past, present or future physical or mental health or condition,
2. the provision of health care to an individual, or
3. past, present, or future payment for the provision of health care to an individual.

The Privacy Rule excludes from protected health information employment records that a covered entity maintains in its capacity as an employer and education and certain other records subject to, or defined in, the Family Educational Rights and Privacy Act, 20 U.S.C. §1232g.

De-Identified Health Information: There are no restrictions on the use or disclosure of de-identified health information. De-identified health information neither identifies nor provides a reasonable basis to identify an individual. There are two ways to de-identify information; either: 1) a formal determination by a qualified statistician; or 2) the removal of specified identifiers of the individual and of the individual's relatives, household members, and employers is required, and is adequate only if the covered entity has no actual knowledge that the remaining information could be used to identify the individual.

General Principle for Uses and Disclosures

Basic Principle. A major purpose of the Privacy Rule is to define and limit the circumstances in which an individual's protected heath information may be used or disclosed by covered entities. A covered entity may not use or disclose protected health information, except either: (1) as the Privacy Rule permits or requires; or (2) as the individual who is the subject of the information (or the individual's personal representative) authorizes in writing.
